All Medpage seizure movement monitors are supplied with a 36 month warranty

Medpage Limited T/A Easylink UK, established 1984, have provided solutions to aid epilepsy care for over 25 years, specialising in the design and manufacture of monitors that detect seizure movements from a sleeping person in bed. To ensure the highest product quality and safety, our company is accredited by BSI to ISO 9001:2015.

At Medpage Limited, we take great care in the design, manufacture and after sales support for our seizure movement alarms. When you purchase an epilepsy seizure movement alarm from Medpage, our highly trained team are readily available for help, advice, and technical support, if needed, to ensure your monitor operates at maximum efficiency. Our technical support is provided at no extra cost.

MP5-ULTRA Advanced seizure movement detection alarm with detection mode selection and carer alarm pagers

The most advanced epilepsy monitor in the MP5 range. Advanced software algorithms continually analyse sleeping movements to positively identify seizure activity. Suitable for complex epilepsy and specialist beds including airflow mattresses.

- Detected seizures are notified via MPPLV4 pager (2 supplied) with tone or vibration alert
- Programmed with selectable seizure detection modes
- Digital movement delayed alarm control
- Inbuilt sound sensor to detect vocalisations preceding or during a seizure
- Large area patented monitoring sensor technology offers improved movement detection
- Digital alarm delay control virtually eliminates false alarms by ignoring natural sleeping movements such as turning over
- Tamper proof settings & fail safe alarm to pagers
- Tonic/Clonic and seizure movement with twitching
- Myoclonic cluster seizures
- Airflow mattress mode
- All Medpage seizure movement monitors have 36-hour battery backup
- Suitable for all ages: babies - adults
- Nurse call and Telecare systems output connection

ORDER CODE MP5-ULTRA PRICE £439.00 + VAT VAT exemption available

Medpage MP5-UT Seizure movement detection alarm Children - Adults

The MP5-UT uses patented sensor technology specifically engineered to detect Tonic/Clonic seizure movement from a sleeping person.

- Detected seizures are notified via the MPPLV4 pager with tone or vibration alert
- Suitable for babies from age 1 month to adults
- Supplied with 1 carer pager for detected seizure movement notification
- Digital sensitivity control
- Sound sensor detects vocalisations preceding or during a seizure
- Digital alarm delay control virtually eliminates false alarms by ignoring natural sleeping movements such as turning over
- Tamper proof settings and fail-safe features

ORDER CODE MP5-UT PRICE £187.00 + VAT (VAT Exemption available)

MP5-UTB Epilepsy bed movement seizure detection alarm

The MP5-UTB is a reliable nocturnal seizure movement detection alarm for babies through to adults at an affordable price. A portable battery-operated alarm with flashing coloured lights and adjustable audible alarm raises an alert to the carer of detected seizure movement.

- Adjustable sensitivity to suit the needs of the user
- Digital alarm delay control virtually eliminates false alarms by ignoring natural sleeping movements such as turning over
- Digitally stored tamper proof settings
- Inbuilt sound sensor detects vocalisations preceding or during a seizure
- Optional plug in under pillow vibrating pad to assist deaf carers (VIB-PAD)

ORDER CODE MP5-UTB PRICE £187.00 + VAT (VAT exemption available)

MP2-V2K Medpage seizure movement detection alarm for care homes

The MP2-V2K uses patented sensor technology to detect typical seizure movement from a sleeping person in bed. Carers are alerted to ongoing seizures via a digital message pager (EM300) with tone/vibration alert. Each monitor has a long range transmitter, which is programmed with your chosen message (default for a single alarm system is Medpage Seizure Alarm 1).

- Long range (up to 400M) wireless alarm to carer message pager
- Suitable for use in larger buildings
- Adjustable sensor sensitivity
- False positive alarm delay control
- Suitable for babies to adults
- Detection of Tonic/Clonic seizure movement
- Vocalisation microphone to detect choking sounds etc.
- Can connect to Nurse Call and/or Telecare equipment

Seizure movement monitor including 1 x EM300 pager
ORDER CODE MP2V2K PRICE £280.50 + VAT

Seizure movement monitor only
ORDER CODE MP2V2 PRICE £203.50

How do I know which model will be suitable?

Medpage manufacture several different models to suit different patient groups. Generally, the method of seizure detection is common to all models, except for the MP5-ULTRA, which has different specialised operating software to enable use with complex epilepsy and specialist bed types, such as air flow mattresses. The choice of alarm notification is the main point to consider. The table below provides a basic guide. For professional use, all models can be connected to a commercial nurse call or Telecare system.

Model Code	Seizure Type	Alarm Notification	Age or Body Size
MP5-UT	Tonic/Clonic	Radio Pager	Baby-Adult
MP5-UTB	Tonic/Clonic	Portable Alarm	Baby-Adult
MP2V2	Tonic/Clonic	Data Pager	Baby-Adult
MP5-ULTRA	T/C + Complex	Radio Pager	Baby-Adult

KFM40C Recording Wi-Fi Camera for home and business

View live video monitoring direct to your Smartphone with this simple to install and use home or business WiFi connected camera.

- Audio & video recorded to SD card (32GB included)
- 360º camera rotation via Smartphone APP
- Hi-Def night vision IR LED sensors
- Secure encrypted password and web platform
- Powered by 5V AC/DC adaptor (included)

Complete camera system **ORDER CODE KFM40C PRICE £43.99 + VAT**

MB200 Recording Wireless digital baby monitoring camera system

Useful camera system ideal for baby monitoring and patient care.

- Portable rechargeable video monitor
- Battery standby 4-6 hours (typical)
- DC adaptor powered camera
- Wireless range up to 60M (indoors)
- Camera Pan/Tilt from monitor
- High performance night vision

Complete camera system **ORDER CODE MB200 PRICE £82.48 + VAT**

MEDBM-03 Digital video watch wireless baby monitor

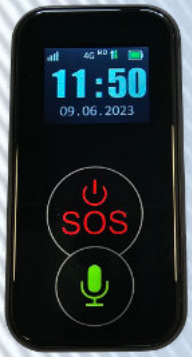
High performance digital wireless video monitor camera with watch style live video viewer.

- VOX vibration alert for camera detected sounds (ideal for deaf carers)
- Wireless range up to 60M indoors (typical)
- Camera night vision viewing
- 2-way voice intercom

Complete camera system **ORDER CODE MEDBM-03 PRICE £103.40 + VAT**

 Recording cameras are supplied with a 32GB memory card

MMFA81 Pocket Keyring GPS Location Tracker with SOS Button and Fall Detection



- Pocket size compact location GPS tracker for lone workers, elderly, vulnerable
- Attach to a keyring to quickly locate lost keys, handbag, briefcase, or a person
- Precise location of device viewable on Smartphone, Tablet, via APP (iOS and Android)
- SOS button sends location text to authorised guardians or carers

- GPS+BDS+WIFI+LBS
- Network: 4G LTE
- Dimensions: H65mm W32mm D12mm
- Gross weight: 39.1g
- Magnetic charging (charger included)
- LCBD screen to show time, power, signal, device status
- Nano SIM card
- Battery:1000mAh, long standby
- Multiple profiles: ringtone; Vibration; Vibration + ringtone; mute
- Clear and high voice volume
- Fall detector emergency call
- Medication reminders x 3 for setting via APP

Order Code MMFA81
Price £68.00 + VAT

MMFA66 GPS Location Tracker Watch Phone with Fall Detection

- A new Smartphone GPS location tracking watch with telephone functions
- Adjustable sensitivity fall sensor with SOS location to guardian
- 7-10 Day battery life with recharge warning to guardian phone
- Medication/event reminders - Send & receive voice messages
- 2-Way mobile phone calling

ORDER CODE MMFA66 Price £82.49 + VAT

Wi-Fi Connected alarm sensors

These items, when connected via the Smart Life APP to home or business Broadband, allow alarm notifications, setup and control of the devices using a Smartphone or Tablet. They require a 2.4GHz connection and will not work over a 5GHz connection.

Wi-Fi PIR Movement Sensor Alarm

Dimensions 100 x 50 x 30mm
Power 2 x AAA batteries
Detection range 12M - Detection angle 110
Pet Immune function < 25KG
Wi-Fi: IEEE802.11 b 2.4GHz

ORDER CODE WFMS PRICE £23.55 + VAT

Wi-Fi Door/Window Contact Alarm

Dimensions 75 x 25 x 15mm * Powered by 2 x AAA batteries
Programmable time close door reminder notification
Internal, external, cupboard doors, fridges etc.
Wi-Fi: IEEE802.11 b 2.4GHz

ORDER CODE WFDC PRICE £15.65 + VAT

Wi-Fi AC Power Socket

Switch appliances on/off using voice control (Alexa)
Control appliances away from home using your Smartphone.
Also contains 433MHz radio receiver for optional RF control
Wi-Fi: IEEE802.11 b 2.4GHz

ORDER CODE RFWFS1 PRICE £17.36 + VAT

Wi-Fi Temperature & Humidity Sensor Alarm

Back-lit display with selectectable °C or °F
Create High and Low alarms for temperature and humidity
Receive alarm notification to APP on Smartphone
USB 5V powered with battery backup

ORDER CODE WFTEMP PRICE £26.43 + VAT

Wi-Fi and GSM (mobile network) connected alarm sensors

Wi-Fi Smoke Alarm

Wi-Fi connected smoke warning alarm
Sends notification to Smartphone or Tablet on active alarm
Not intended for use as a primary smoke warning alarm
Can be of benefit to deaf people by creating vibrating alerts on their Smartphone

ORDER CODE WFSA PRICE £22.11 + VAT

Wi-Fi AND GSM CONNECTED EMERGENCY CONTACT ALARM HUB

KFDK2 WATERPROOF SOS PENDANT WITH NON-CONTRACT DIALLER HUB

Code: KFD2
Price £87.57 + VAT

- Dialler uses GSM network and home/business Broadband to send alarm notifications to authorised carers/family
- Wi-Fi connection uses Smart Life APP to enable control of settings and receipt of notifications on a paired Smartphone
- No Wi-Fi ,alarm hub sends alarm notifications via text messages and phone calls to Smartphone
- 2-Way voice calling over Wi-Fi and GSM
- Password protected keypad
- Alarm hub battery backup/ power fail warning

KFDK3 WATERPROOF FALL DETECTING SENSOR WRISTBAND WITH SOS CALL BUTTON

Code: KFDK3
Price £115.05 + VAT

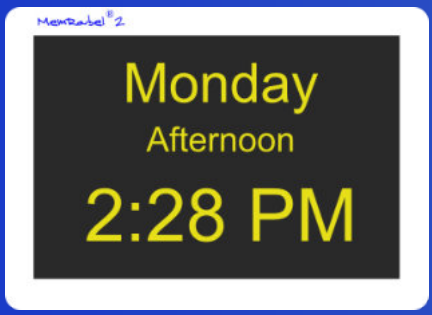
- Fall detection results in alarm notification transmission to carers over Wi-Fi and or GSM mobile phone network
- Adjustable fall detection sensitivity
- Wristband to alarm hub wireless range 100M
- Low battery warning for sensor
- Dialler hub alarm reset via carer Smartphone or cancel button on dialler hub
- Dialler powered by 5V USB adaptor (included)
- No maintenance or management fees
- Also compatible with Medpage care sensor products including bed/chair alarms, fall pendants, and epilepsy care products

Optional transmitters for the KFD alarm hub include: PIR, Door Contact, Flood Alert
Search KFD on our website to view all options.

 KFD Alarm dialler hubs are supplied with 1P Mobile SIM card

MemRabel®

MARKET LEADING DAILY MEMORY PROMPTING CALENDAR CLOCK



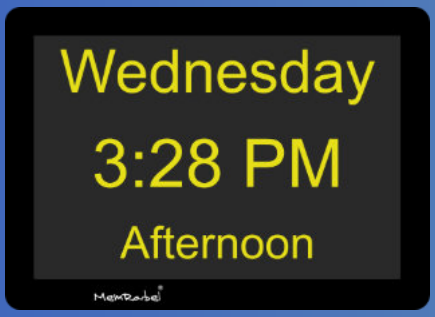
MemRabel® 2

- Selectable time and calendar displays, digital or traditional clock face
- Choice of screen and font colour
- Create daily schedules from preloaded prompting graphics, videos and slides (over 100)
- Create reminder alarms for single, Daily, Weekly, Monthly automatic repeat
- Transfer your own photos, videos or voice messages for timed alarm playback by SD card or flash drive
- Peace of mind for caring family members
- Promotes independent living, creating a positive effect on the users self-esteem and confidence

- Overall dimensions: 203 x 177
- Screen Size: 152 x 127mm
- Resolution: 1080/720
- Internal storage: 8Gb
- Picture formats: JPG,BMP, PNG, GIF
- Audio Formats: MP3, WMA, OGG, APE, AAC, WAV, FLAC
- Video Formats: RM, RMVB, AVI, MP4, MOV, VOB, PMP, FLV
- Power: 5V DC power adaptor (included)

£109.98 + VAT

MemRabel MR3 THE PERFECT SOLUTION FOR TECHNOLOGY ENABLED DEMENTIA CARE



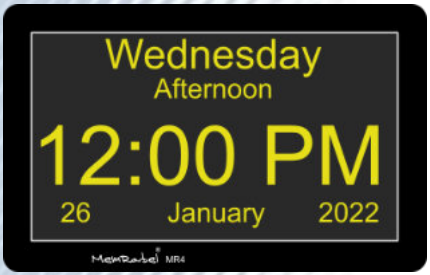
MemRabel® 3

- Display screen dimensions: 220 x 140mm
- 1080p Full HD display (1920 x 1200)
- Capacitive touch screen menu navigation
- Power: 5V DC mains adaptor
- Connectivity: Wi-Fi 2.4/5GHz
- Inputs: USB/SD Card (supports up to 128GB)
- Outputs: 3.5mm Stereo headphone jack socket
- Audio output: 2 x 2W RMS
- Lockable memory prompt alarm volume

- Smartphone connectable media file and reminder alarm setup
- Transfer files from your Smartphone using the MemRabel web platform - (requires annual subscription of £59.95)
- High definition touch screen menu and settings access (pass code protected)
- Easy music player for creating happy memories
- Touch-tile video playback - photo slideshows, instructional or family videos
- Unlimited reminder alarm creation and storage
- Connects to home Wi-Fi for automatic time and software updates

£131.99 + VAT

Connect to home Wi-Fi for automatic seasonal time adjustment



MemRabel ® *MR4*

- Power: 5V/2A DC
- Power Adaptor with 3 Metre Cord included
- Screen size: 7” (178mm)
- Screen Resolution 1024 x 768
- Remote Control: CR2032 battery
- Audio output: 1.5W
- SD Card & USB slideshow or video playback
- Time display auto-dim
- Pre-alarm tone

- Set up to 20 reminder alarms for single, Daily, Weekly or Monthly repeat
- Choose from over 100 preloaded graphic reminder images
- Choice of time display from simple to full calendar
- Connect to home Broadband for automatic seasonal time updates
- Choose to display weather forecast with outdoor temperature for your region
- Simple menu to access settings using included remote control or rear setting buttons

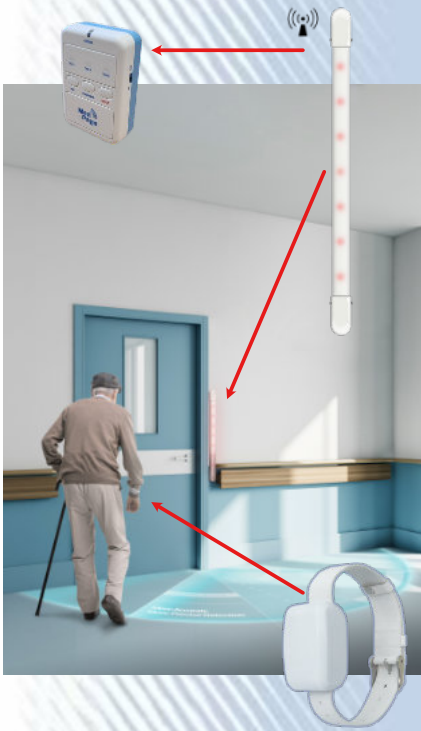
£64.12 + VAT

The concept of using digital media as a means of aiding people with failing memory was created by Medpage Limited during 2007. Today, people all over the world are benefiting from this technology. The brand MemRabel has set the standard others have followed.

DoorWatcher ® Wristband Activated Door Egress Alarm System

A solution to stop wandering people

How it works. A wristband monitor strip is fixed by the exit door frame. When a patient wearing a wristband gets too close to the monitor strip, alarms are activated.



Features:

- DMS-21 is equipped with internal audible alarm with volume adjustment and a bank of high-intensity flashing LED's, activated on wristband detection
- Internal alarm transmitter signals any alarm receivers in use with the system (pagers, emergency call alarm receiver and/or wireless nurse call
- Adjustable detection range (short 1M, med 2M, long 3M)
- Control output for electronic door lock
- Alarm bypass allows caregiver to escort residents through a protected door without activating alarm
- NO/NC relay allows interfacing with 3rd party equipment such as nurse call or Telecare systems

Technical Specifications DMS-21 Door Strip

Radio frequency TX: 20kHz and 433.92MHz
Radio frequency Rx: 433.92MHz and 867.7MHz
Operating range: 50m transmission (line of sight)
Power supply: 12V, 3A
Dimensions: 58 x 3 x 2cm

Compatible with ILB21 (P33)
Wall mounting alarm receiver

Magnetic reset key

Wireless reset

- Systems available for single or multiple residents
- Simplistic installation and setup
- Available with radio pager alarm solutions

Single wristband kit comprising 1 x DMS-21 door strip, 1 x magnetic reset key, 1 x TXP-21 wristband, 1 x PAG-21 caregiver pager.

Code DWSYS2 Price £441.10 + VAT

Medpage Radio Paging Alarm Notification Receivers

Medpage products are designed to provide interoperability of system component parts to achieve more flexibility in providing client alarm solutions. Most of our sensor/alarm device products are available in kit form, for a single user for example. When additional sensors or alarm devices are required the flexibility of Medpage products simplifies the task. Our most popular alarm pager/receivers are detailed below.

MPPLV4 ALARM RADIO PAGER (TONE/VIBRATION ALERT) Price £34.10

- 2- Alarm Channel radio pager
- Can be used with multiple transmitters on the same channel
- Channel 1 & Channel 2 produce different alarm tone
- Tone & Vibration alert with tone volume setting
- Mainly for single user/device
- Wireless range up to 100M/400M (2 x AA batteries)

MP-PAG31 3-CHANNEL ALARM RADIO PAGER (TONE/VIBRATION ALERT) Price £32.20

- 3 Alarm Channel radio pager
- For single/multiple users and devices (up to 3)
- Channels 1-3 have LED alarm channel indication (Sen 1, 2, 3)
- Tone/Vibration alert notification with volume control
- Can be used with mixed devices: Bed, chair, door, PIR
- Wireless range up to 100M (2 x AA batteries)

PAG-11c NURSE CALL MULTI-DEVICE ALARM PAGER Price £35.10

- Multiple channel alarm pager for up to 9 users/devices
- Caller ID displayed in LCD display (Ex: Call 11,7, 8)
- For use in care homes, hospitals
- Tone & Vibration notification alert with volume control
- Can be used with nurse call station CMD11
- Wireless range up to 100M (2 x AA batteries)

NMDRX 5-CHANNEL PORTABLE ALARM RECEIVER (AUDIBLE/VISUAL Price £41.23

- Wireless portable alarm receiver for use with up to 5 patients
- Battery/mains powered with low battery warning
- Audible alarm with volume control and flashing coloured LED's (different for each alarm channel)
- Output for vibrating pad to alert deaf or hard of hearing people
- (3 x AA batteries or 6V DC power adaptor)

MPCSA11 PORTABLE 3-CHANNEL ALARM RECEIVER WITH RELAY OUTPUT Price £85.91

- Pair with up to 3 x wireless sensor transmitters 433MHz
- Audible alarm with volume control and output alarm transmitter
- Hard wired alarm input RJ11 input socket
- Nurse call system alarm connection output socket 6.3mm
- Battery (3 x AA) and or DC power adaptor (6V) @300mA

Product compatibility indicated by orange or green border

MED-DCT DOOR/WINDOW CONTACT ALARM TRANSMITTER Price £12.82

Proximity contact door/window alarm
Transmits alarm signal on door/window open
Powered by 1 x CRO2032 Lithium 3V battery
Internal/external doors, cupboards, draws etc.

MPPL-MS PIR MOTION SENSOR ALARM TRANSMITTER Price £37.40

Battery powered (2 x AA) PIR transmitter
Adjustable detection range 4M/8M
Detection angle 100°
On/off switch - wall mounting bracket
Suitable for elderly and dementia care

TUMPIR21 PIR MOTION SENSOR ALARM TRANSMITTER Price £28.60

Battery powered (3 x AA) PIR transmitter
Selectable transmit/sound/off
Pause button (if pressed delays repeat alarm)
Wall fixing or tabletop placement

MPPL-TXU2 UNIVERSAL SENSOR CONTROLLER/TRANSMITTER Price £37.40

Multi-function battery powered (2 x AAA) transmitter
2.5mm jack socket input for alarm trigger
Selectable transmission range 100M/400M (MPPLV4 pager)
Selectable alarm channels and alarm modes
Most popular door/window magnetic switch alarm
Door magnet included

NEW MPTXP11 GRAVITY CHANGE FALL DETECTION ALARM Price £39.48

Resident/Patient fall detection wristband
Programmable operation modes including sensitivity
Includes SOS call button
Waterproof to IP67 - safe for showering and wet-room use
Compatible with KFD1 auto-dialler hub

All prices are exclusive of VAT

MPPL-ERTX PORTABLE WATERPROOF HELP CALL SOS PENDANT Price £15.40

- Push-button transmitter with reassurance LED
- Supplied with wrist strap and lanyard
- Compact, lightweight, durable materials
- Transmission range 60-100M (open field)

FT47C-DTXMK BREAK BEAM SENSOR ALARM KIT Price £112.20

- Alarm generated on break beam to portable receiver
- Use to protect vulnerable, staircases, wandering etc.
- IR transmitter DC adaptor, IR receiver battery powered
- For indoor use only - outdoor version **MED-PEB (web)**

BC346 POCSAG LONG RANGE FALL DETECTION ALARM WITH CALL BUTTON

- Waterproof fall detection wristband
- Transmission range up to 400M on 433MHz
- Device/user ID programmable for pager display (factory)
- Adjustable fall sensor sensitivity (factory)

Price £85.80

MPPL-MS2 POCSAG LONG RANGE DEVICE ID PROGRAMMABLE PIR

- Transmission range up to 400M
- Programmable detection alarm modes
- Battery operated (2 x AA) 12 month use
- External on/off switch and tamper alarm

Price £37.40

POC-840DC POCSAG LONG RANGE DEVICE ID PROGRAMMABLE DOOR ALARM

- Transmission range 400M on 433MHz
- Message/ID programmable via PC software
- Compact size 60 x 30 x 10mm
- External on/off switch

Price £68.20

All prices are exclusive of VAT

POC-940 POCSAG LONG RANGE WATERPROOF HELP CALL PENDANT Price £63.80

- Message/ID programmable call pendant
- Waterproof to IP67 - shower safe
- Supplied with lanyard and wrist strap
- Transmission range 400M on 433MHz

NMDTX2 UNIVERSAL LONG RANGE POCSAG MESSAGE PROGRAMMABLE Price £56.10

- Multi-function battery powered (2 x AAA) transmitter
- 2.5mm jack socket input for N/C N/O alarm trigger
- Selectable modes for floor, chair, bed monitoring
- Selectable alarm channels and alarm modes
- Transmission range 400M on 433MHz

DIGITAL POCSAG MESSAGE DISPLAY RADIO PAGERS

EM300 LONG RANGE (400M) DIGITAL DATA MESSAGE DISPLAY PAGER Price £77.00

- Unlimited user/device transmitter monitoring
- Device/user ID programmed to transmitter for display on alarm
- Long range capability up to 400M
- For large buildings, care home, hospitals
- Tone & vibration alert with volume and tone melody selection

EM400 LONG RANGE DIGITAL ALPHANUMERIC MESSAGE PAGER Price £67.10

- Powered by 1 x AA battery
- Long range POCSAG receiver (400M) on 433MHz)
- Powerful vibration alert with selectable tone alarms
- Rugged, durable design with strong belt clip
- Displays pre-stored alarm messages on alarm

MPPA3 POCSAG FORMAT DIGITAL RADIO PAGER WATCH Price £91.65

- Rechargeable waterproof (IP67) pager watch
- Powerful vibration alert with audible alarm
- Touch screen menu navigation
- Daily alarms and reminder settings
- Pager message displayed on LCD screen

All prices are exclusive of VAT

Wander detection door alarms with radio pager

Door & Window proximity alarm transmitter with pager

- Ready to use straight out of the box door/window alarm
- Door opens, alarm signal transmitted to 3-channel pager
- Add extra transmitters for monitoring by a single or multiple pagers

Code: TUMPAG31DCT Price £43.19 + VAT

Door & Window proximity alarm transmitter with portable alarm

- Ready to use straight out of the box door/window alarm
- Door opens, alarm signal transmitted to 9-channel radio pager with tone/vibration alert
- Caller ID displays active alarm transmitter

Code: PAG-11C-DCT Price £46.93 + VAT

Door & Window proximity alarm transmitter with pager

- Ready to use straight out of the box door/window alarm
- Door opens, alarm signal transmitted to radio pager with tone/ vibration alert
- Door transmitter has On/Off switch
- Wander detection - general security

Code: MPPL-DCTK Price £49.93 + VAT

Message programmable door alarm transmitter with data pager

- Battery powered door/window proximity sensor
- Message programmable for transmission to data pager
- Tone/Vibration alert pager with transmitter message display

Code: POC-DCK £145.20 + VAT

Wander detection PIR alarms with radio pager

PIR Movement sensor alarm with radio pager

- Narrow- beam PIR movement detector with alarm pager
- PIR alarm pause button
- Select alarm tone or transmission
- 3-Channel tone/vibration alert pager
- Use for bed leaving, wander detection and general security

Code: TUMMSKIT Price £59.40 + VAT

PIR Movement sensor alarm with portable wireless alarm receiver

- Narrow-beam PIR with portable wireless alarm receiver
- 5-Channel alarm receiver with flashing coloured LED's (5 different) and audible tone alarm
- Ideal for hearing impaired carers who fail to hear audible alarms

Code: DRXTMSKIT Price £69.30 + VAT

PIR Movement sensor alarm with radio pager alarm 400M Range

- PIR with radio pager alarm
- Tone/vibration alert pager
- Selectable PIR alarm delay modes
- Wall mounting via bracket or included velcro
- PIR selectable alarm channel

Code: MPPL-MSKIT Price £64.91 + VAT

Message programmable PIR transmitter with data pager

- Battery powered PIR transmitter
- Message programmable for transmission to data pager
- Tone/Vibration alert pager with transmitter message display

Code: MS2EM300 £114.40.00 + VAT

CTM-3 PRESSURE SENSOR CONTROLLER WITH RECORDABLE VOICE ALARM

- Powered by 3 x AAA batteries or 6V DC power adaptor
- Integral 433MHz alarm to pager transmitter 100M range
- 2.5mm jack socket for sensor or contact trigger input
- Output for nurse call connection
- 3 Second or 15 minute delayed alarm selectable
- Recorded voice, silent, or tone playback on alarm

Code: CTM3 Price £48.95 + VAT

BTXMED-04 PRESSURE BED/CHAIR SENSOR PAD CONTROLLER TRANSMITTER

- Pressure sensor pad alarm controller with transmitter
- Wireless alarm signal to carer receiver/pager (100M)
- Alarm reset, patient call button, nurse call output socket
- Supplied with rubber protection jacket
- Instant or delayed alarm selection
- RJ11 sensor connection socket

Code: BTXMED-04 Price £45.33 + VAT

MPCSA11 MULTI-SENSOR CONTROLLER WITH CONFIGURABLE ALARM MODES

- A feature unique to the CSA11 is last sensor detection alarm reset. This feature enables a person to leave their bed and move to a chair without alarm generation.
- 3-Channel alarm receiver with nurse call connection output
- High specification status monitoring and reporting
- Compatible with KFD1 auto dialler for home activity monitor
- RJ11 chair/bed pressure mat sensor connection socket

Code: MPCSA11 Price £85.91 + VAT

BMDV-11 DUAL SENSOR ALARM CONTROL WITH RECORDABLE VOICE ALARM

- Pull-away alarm magnet with clothing clip triggers alarm
- RJ11 input sensor socket for bed or chair sensor pad
- Recordable voice alarm or audible tone alarm playback
- Monitored nurse call connection output socket
- Status LED's for pad lost, low battery, nurse call output

Code: BMDV-11 Price £59.53 + VAT

Medpage Bed, Chair, Floor Pressure Mat Detection Cordless Sensors

Sensors are designed for placement under a bed mattress or chair cushion. Cordless sensors have a pocket to store the alarm transmitter, which sends an alarm signal to a pager or wireless alarm receiver directly. Cabled sensors plug into an alarm controller, which transmits the alarm signal to the alarm device.

Fall Prevention Cordless Sensors

MPUFBP20T CORDLESS BED SENSOR

Zip-seal to protect transmitter from Incontinence and tampering

Size: 76cm x 50cm x 8mm
Material: PVC
Transmitter 433MHz
Range 50-70M (open field)
ON/OFF switch - Low battery alert

Price £77.55 + VAT

MPUCP10T CORDLESS CHAIR SENSOR

Size: 38cm x 25.5cm
Total uncompressed thickness: 6.4mm
Transmitter 433MHz
Range 50-70M (open field)
ON/OFF switch - Low battery alert

Price £77.55 + VAT

UFMT10T LARGE FLOOR PRESSURE MAT

Concealed integral transmitter sends alarm signal when a person stands on the mat.
Suitable for domestic and professional bed leaving and security applications.
Size: 120cm x 60cm
Transmitter stored in pouch

Price £138.38 + VAT

WPAS10 FAST DETECT BED EXIT SENSOR

Patented multi-zone detection design.
Alarm transmission when a patient is sitting on the edge of the bed.
Default delay setting in the centre greatly reduces the incidence of false alarms.
Size: 76 cm x 25cm
Transmitter stored in pouch

Price £67.68 + VAT

CT3 CABLED LARGE BED PRESSURE MAT

Size: 75cm x 45cm x 8mm
Connection cable length: 3M
Connector type: 2.5mm jack plug

Price £23.20 + VAT

CT2 CABLED CHAIR PRESSURE MAT

Size: 38cm x 30cm x 8mm
Connection cable length: 3M
Connector type: 2.5mm jack plug

Price £23.76 + VAT

UFMTPAG31 CORDLESS FLOOR MAT WITH 3-CHANNEL PAGER

- Concealed integral transmitter sends alarm signal when a person stands on the mat
- Suitable for domestic and professional bed leaving and security applications
- Non-slip for hard & carpeted floors

Sensor size: 120cm x 60cm
Transmitter frequency: 433MHz 50 - 75M range
Pager: 3-Channel tone & vibration alert
2 x AA batteries.

Code: UFMTPAG31 Price £169.40 + VAT

MPCSA11 FALLS PREDICTION and PREVENTION MONITOR

The MPCSA11 is a multi functional sensor monitor equipped with a 3-channel receiver, alarm transmitter, and Nurse Call/Telecare output. The controller can operate with a single or up to 3 sensor devices. In predict mode, the MPCSA11 is easily programmed to allow a patient to move from bed (monitored by bed sensor) to a chair (monitored by a chair sensor) or to move into another area, kitchen, washroom etc. (monitored by a movement sensor). So long as a sensor has active contact; sitting in a chair, laying in bed, or moving, the alarm is held off. Failure to trigger the next sensor within the selected time delay will result in alarm output. A fall sensing wristband (MP-TXP11) can be added if required.

Alarm notification can be by local radio pager or relayed to a remote carer by the KFD1 Alarm Hub over Wi-Fi to APP, or by mobile network to a Smartphone.

MPCSA11
Price £85.91

Compatible Wireless Sensors

MPUFBP20T

MP-TXP11

MPUCP20T

KFD1
GSM/Wi-Fi ALARM HUB

TUMPIR21

PAG11c

Alarm Modes:

- Instant trigger - immediate alarm
- Last sensor reset - Move from bed to chair, chair resets bed alarm. Include PIR, PIR resets bed or chair alarm. Failure to return to bed or chair within selected time will result in an alarm.

Alarm Notifications:

- Radio pager, (MP-PAG31, PAG-11C)
- Connect MPCSA11 to commercial Nurse Call system
- Alarm notification by GSM/WiFi Alarm Hub to Smartphone or Call Centre

Connectivity:

- The monitor can control 1 x cabled sensor with 3 x wireless sensors
- 6.3mm Jack socket for Nurse Call lead

General Features

- Turn Patient - Allows a patient to be turned with paused alarm
- Comprehensive status monitoring with LED indication for Low Battery, Signal Loss, Sensor connection problem

AG352 MOTION ACTIVATED PIR LIGHT

- Battery powered (3 x AA)
- Quick and easy to install
- Ideal as an aid for the elderly
- Automatic lighting when you need it
- Ideal for cupboards, hallways, sheds and outbuildings
- Remove light from stand to use as a torch
- 3 Super Bright LED's will remain on so long as there is a presence in the beam, automatically switching off 20 seconds after movement ceases.

Order Code: AG352 Price £12.40 + VAT

RFWFS1K Wi-Fi CONNECTED AC MAINS SMART POWER SOCKET PLUG

- Use the Smart Life APP to connect socket to Amazon Alexa or Google Assistant
- Control appliance by voice control or remotely from Smartphone
- Also contains RF receiver for remote control by included pendant in case of Wi-Fi failure
- For devices of up to 10amp

Code: RFWFS1K Price £21.95 + VAT

NEW FOR 2022/23 MEDPAGE BED & CHAIR EXIT ALARM

The BTX21-MP is a high performance, high quality sensor mat alarm controller. A connected pressure sensing bed, chair, or floor pad plugs in to the input socket. The alarm is armed when a person is detected on their bed or chair. When they rise and exit the alarm is generated. In floor mat mode standing on the mat raises an instant alarm.

MEDBTX21 GENERAL FEATURES

- Monitor for reducing potential falls - domestic - professional
- Compatible with bed, chair, and floor pressure sensors
- Wireless integral transmitter with up to 100M range
- Internal audible alarm with silent/low/med/high volume
- Status monitoring for power, connected sensor pads
- Adjustable alarm exit delay 2 seconds/15 minutes
- Area/ward code setup for use in care homes and hospitals
- Nurse call system connectable with status monitoring
- Can also integrate with MPCSA11 to create a monitored system
- Power 3 x AA batteries and/or 5V power adaptor
- Dimensions: 115mm x 75mm x 30mm

Medpage Assistive Technologies You Can Rely On

Bedtime Seizure Movement Detection Alarms

Medpage was established as a leading brand for nocturnal seizure detection nearly 30 years ago. Although technologies have advanced beyond the imagination during this time, our policy of keeping things simple and affordable remains the same.

- Reliable Tonic/Clonic seizure detection

Falls Management and Prevention Products

Easylink UK introduced the first radio alarm linked falls detection alarms in the UK, again almost 30 years ago and are used by thousands of people in Care Homes, Hospitals, and living independently at home.

Telecare - Assistive Technology - Child & Senior Care

Creators of MemRabel® the memory prompting day clock for people with failing memory or cognitive impairment

Technical product support - product training for professionals
